Having established roots in three separate cultures, Mexican, Italian and Swiss, have developed an ability to both recognise and capture the richness of people, cultures and their respective evolution. I am immensely driven by my curiosity and photography has fuelled my passion. I have been motivated to capitalise on contrasting representations of cultures, environments and human values that turn into artistic expressions through photography.

The collection of essays on photography and politics from David Strauss' "Between the Eyes" (2003), has inspired me to learn more about the impressive world of photojournalism & Documentary Photography. My passion meets qualification as I hold a Master's of Photojournalism & Documentary Photography with Merits from the London College of Communication (LCC), University of the Arts London (UAL). I am based in Phnom Penh, Cambodia, however, my reportage experiences have taken me all over the world.
